Royal Institute of Navigation

# Guidance from outer space

Speaker – John Pottle  
Director Royal Institute of  
Navigation

Monday 4<sup>th</sup> February 2019  
1730 for 1815 onboard HQS Wellington

How accurate is GPS? Do more satellites make for more accuracy? How do you know if you're being jammed or spoofed? Can the US turn off GPS?

In addition to addressing these questions, the talk will review the latest alternative and complementary positioning technologies, the use of "big data" techniques and augmented reality.

The speaker joined the RIN as Director in 2017. Before this, he was in industry directing Spirent's Positioning Technology business unit and as Commercial Development Director at Intelsat, Washington DC, USA.

There will be the opportunity for informal discussion in the Wardroom Bar before and afterwards.

Admission: FREE

**HQS WELLINGTON** (020 7836 8179) is berthed at Victoria Embankment, near Temple tube.

**Please circulate this notice.**
