

Honourable Company of Master Mariners

# Future Skills Conference

FORMING AN INNOVATIVE AND FORWARD-LOOKING MARITIME TRAINING STRATEGY

The UK Government's Maritime 2050 Strategy sets ambitious targets for our maritime industry, encouraging us to develop cutting edge seafarer training and regularly review our skills needs.

The Honourable Company of Master Mariners invites our partners and friends from industry, academia and regulatory bodies to elucidate the hard and soft skills that our seafarers will need in the future. We will also investigate how innovative training technologies and qualification strategies can bridge skills gaps and enhance the UK's maritime skill base.

**The Future Skills Conference  
will build on the the work of the  
MNTB, Maritime UK and others.**

**With a keynote speech by Kathryn Neilson**  
Director, MNTB

Places are limited and pre-booking is essential.

£30 members, £35 non-members  
including lunch and refreshments

12/06/19, 0900-1700
